It may be noted that the ownership of these rivers are assigned to the respective posts rather than individuals. Hence, whoever in charge of the respective post will automatically being charge of the rivers corresponding to their designation unless revised orders are issued in this regard.

The officers who are given the ownership and responsibility of each river have to:

Role, responsibilities, duties and functions of the charge officers are;

1. To ensure Room for River
2. Upkeep, maintenance and fortnightly inspection, report, uploading of photos in the website.
3. Collection of all relevant data, depicting the location, width of river, the details of river banks, type of soil, slope of bed, approximate quantity of silt, debris, solid waste accumulation, liquid waste discharge of rivers.
4. The details of water level in the river during floods, details of gauging stations, hydroelectric power generation stations, dams, barrages, RCBs, VCBs, Check Dams etc
5. The details of polluted stretches and sources of pollutions are to be identified. Action shall be taken against the polluters of Water body as per the provisions contained in the Kerala Irrigation and Water Conservation Amendment Act, 2018 and Rules there under.
6. Spotting points of delta formation, encroachment, cleaning of silt and deltas and ensuring smooth water flow through the normal course of the river, rivulets and streams joining rivers and tributaries.
7. Any other activities which are assigned to them by the Chief Engineer and/or by Government.

  
Chief Engineer  
Irrigation & Administration
